DESCRIBE THE PRESENT AND ORIGINAL (II known) PHYSICAL APPEARANCE

This house is located along the west side of old Route 66, a short distance south of Interstate 70 in the village of Beaver Creek in Washington County, Maryland. Like other houses in this small town, it is situated on a rise of ground above the Beaver Creek and faces east or toward the road.

The building is a three-bay log dwelling covered with wooden siding, painted white and trimmed with black. A two-bay el or wing extends to the rear or west of the main section. The walls are set on roughly coursed fieldstone foundations.

Windows are located in all elevations of the house. At the facade, two windows are located at each story. They contain two-over-two pane Victorian period sashes framed with late 19th century Greek Revivalinspired architraves.

The main entrance is located in the center bay of the facade. The doorway is simple and is framed similarly to the windows.

A double porch is present along the south wall of the el.

The roof of asphalt shingles extends for some distance beyond the walls of the house. A decorative contoured barge finishes the roof at the gables. The eaves are treated quite simply with a band of plain cornice molding.

The present tenant has stated that the interior of the house was remodeled about 1930. The structure is in good condition and stands on a 53' X 116' lot.
